Make "Rain Outs" A Thing Of The Past!

Rain Out is an exciting new product that brings convenience, improved performance, and cost savings to problems that all field managers experience with skin areas. Rain Out field drying agent is the greatest technology for water management on skin areas of baseball and softball fields. Rain Out is a unique water management product that is quite simple to use, works quickly, and will not permanently modify the structure of your skin mix. Rain Out replaces all your old problematic soil conditioners / field dry products and agents with technology that performs for you. 10 pounds equals 2500 pounds of calcined clays. Rain Out works faster and there is no removal required.
